## BILLS STOPPED IN THE 2023 SESSION

In the unprecedented flurry of bills filed and passed in the 2023 session, Minnesota families won a hard earned victory:

- Homeschool testing privacy was maintained.

## BILLS PASSED IN THE 2023 SESSION

Unfortunately, significant ground was also lost for informed consent and parental rights:

- Legalized abortion to full term, no informed consent, parental consent or notifications. Sanctuary state status established.
- Education standards adopted to mandate critical race theory and gender ideology in public schools.
- Require schools participating in PSEO to remove faith statements for admissions.
- Sanctuary state status established for medical gender transitions for minors.
- Amended current statute allowing courts to remove custody of children denied access to gender transition services.
- REMOVED language in the Minnesota Human Rights Act that stipulated minor attraction is NOT a sexual orientation.
